WAYNE STATE
UNIVERSITY

ACKNOWLEDGEMENTS

We are grateful for the contributions of all of our partners (listed below) who played a key role in co-developing this technology toolkit over the course of several years. We hope it will help improve the experience of using technology and help improve older people's access to information and resources to help them manage their social, mental and physical well-being. This guide was adapted from the Johns Hopkins School of Nursing that was funded through the Patient-Centered Outcomes Research Institute.
